

In response to the COVID-19 (coronavirus) pandemic, MBI Industrial Medicine the specialists in occupational injury care will offer additional services to their clients for COVID-19 needs. We are here to serve our community and our customers during this national crisis. Services will include:

- **Telephonic triage services – employers & employees can call and consult with our provider**
- **Onsite triage services – temperature check, triage possible exposure, mask fit test.**
- **Return to work exams – COVID-19 non-test based strategy per CDC guidelines via telephonic or in person**

To get started on any of these services please contact your nearest MBI clinic or your Health Service Manager. Thank you and stay healthy!
